

Scroll Bars for Empower 3.0

If a teacher comes to you complaining that they are unable to view all of their students or learning goals when they are using Empower 3.0, then use these instructions in order to enable them to view scroll bars that will allow them to view all that they need to see.

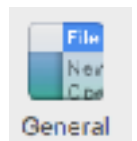

Go to the black Apple Menu in the top-left of the screen.

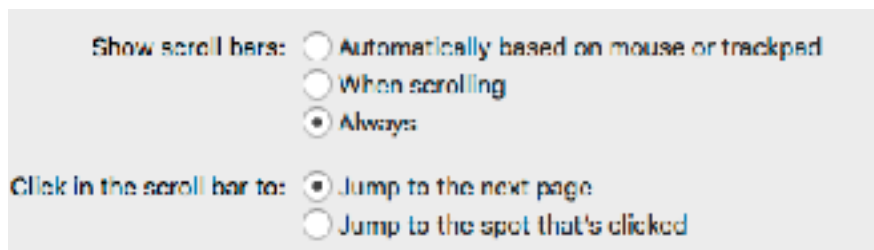

Select System Preferences.

Click the General icon. (it is the first one listed on the top row.)

In the middle of the General window you will see “Show scroll bars:”. You will want to click the “Always” radio button so that

They should then go back to their Empower page and Refresh it so that they will then see scroll bars available to them. It would be even better though, if they quit out of the browser, start it up again, and then log into Empower 3.0.
